FOR IMMEDIATE RELEASE

Macon Industries Announces the Expansion of their Steel Fabrication Division with the Acquisition of Increased Shop and Equipment capacity.

Macon Industries is forging an exciting new fabrication from the assets of the legendary NFE to bring the world class service of Macon Industries to Vancouver Island and BC

Chemainus, BC, October 7th, 2022 – With respect of the previous NFE Manufacturing Inc. carrying their name and business for over 120 years. Macon Industries wishes to utilize the equipment and land purchases to further their outstanding custom fabrication abilities throughout Vancouver Island and beyond.

With the addition of 26,000 square feet of shop space, full machine shop, sand blasting and mobile field crews, this acquisition will support Macon's expansion into the local custom Fabrication Market. Having locations in North, Central and South Island and being backed by Macon Industries' Administrative, Processing and Engineering strengths, it will increase the spectrum of services Macon Fabrication will be able to provide.

Macon Industries was founded on Vancouver Island in 2006 by Matt Conley. Macon and has grown to be a Worldwide provider of Exploration and Mining equipment. With grass roots from the repair and custom fabrication industry, the acquisition of the additional land, buildings and equipment will allow an increase in capacity and skill set to be able to support the need for high quality fabrication and machining work on Vancouver Island.
